**Test Update  
Lidocaine (LIDO) Delay in Testing**

As of November 25, 2008, results for serum lidocaine will be delayed due to instrument and/or analytical problems. All samples are being sent out to our referral lab with a 48 hour turn around time.

Test Mnemonic: LIDO

Methodology: Fluorescence Polarization Immunoassay

Performed: Sun-Sat

Reported: Within 48 hours

Specimen Required:

One 5 mL plain red. Separate serum from cells immediately. Also acceptable: green (sodium heparin).

Please call Dr. Lorne Holland 720-848-7050 if you have any questions or visit our website at <http://clinlab.uch.edu> for additional information.
