Delay in Testing
Hepatitis B Surface Antibody Titer (HBSABQ)

Effective immediately, there will be a delay in test for Hepatitis B Surface Antibody Titer (HBSABQ) due to the manufacturer's reagent. Samples will be held until a new reagent arrives, approximately one week, February 2, 2009. Please notify the lab if in need of testing sooner and we will send out the sample to our referral lab.

Please call Lorne Holland, MD 720-848-7050 if you have any questions or visit our website at the [Clinical Lab Home Page](#) for additional information.

Issued [1-27-2009]
