

**UNIVERSITY OF COLORADO**  
**HOSPITAL**

ANSCHUTZ MEDICAL CAMPUS

**GLYCOLS (Ethylene Glycol and Propylene Glycol)**

Effective immediately, there will be a delay in test for GLYCOLS due to problems with our instrumentation.

Ethylene Glycol samples will be sent to a reference lab with a turn around time of 24-48 hours.

Because of a 7-10 day turn around time for Propylene Glycol samples by the reference lab, all patient samples will be held until the instrument is repaired.

Testing is expected to resume for both ethylene and propylene glycol by Friday, February 19, 2009.

Please call Lorne Holland, MD 720-848-7050 if you have any questions or visit our website at <http://www.uch.edu/for-healthcare-professional/Clinical-Laboratory/index.aspx> for additional information.
