**Test Update – TESTOSTERONE
Reference Range Update**

Updated Reference Range

Evaluation of current UCH Clinical Laboratory Testosterone reference ranges indicates a need for slight modifications as indicated below.

| | Current Reference Range | New Reference Range |
|--------|--------------------------------|----------------------------|
| Male | 175 to 781 ng/dL | 168 to 758 ng/dL |
| Female | 0 to 75 ng/dL | 0-90 ng/dL |

This reference range revision will be implemented on Thursday September 24, 2009

Please call Lorne Holland MD at 720-848-7050 if you have any questions or visit our website at <http://www.uch.edu/for-healthcare-professional/Clinical-Laboratory/index.aspx> for additional information.
